Reverse Progressive

Reverse Progressive was a great opportunity for NIBs to make a special home cooked meal for our Brothers. I collaborated with Miranda, Alex, and Zill. Since Zill was a vegetarian, Miranda and Alex decided to cook vegetarian pasta and vegetable spring rolls. Our menu also consisted of chicken wings, carrots and celery with ranch, and chicken buffalo dip. While cooking with Miranda, I learned more about how to be a well rounded person for residency, and she gave me great advice on joining more organizations and applying for leadership roles. The Brothers we hosted were Jody, Allyn, Jessica, and Rutvi. It was very fun to have dinner with them as we played the card game “Who is most likely”. We learned alot about each other such as who is most likely to go somewhere spontaneously and who is most likely to always read instructions. Then we headed to The Connection for donuts with all the Brothers. When I got there, the Brothers greeted me as I headed for the donuts.

I chatted with the Brothers on what they had for dinner and did in their free time. One house had 3 different types of pasta, and another house had a greek salad on their menu. Brothers chatted and played games like pool, ping pong, foosball, and air hockey. I played foosball for the first time and was taught by the Brothers. My team won after being coached effectively. Then, I played air hockey against Shyam, WCC. The air hockey table had a couple issues such as one air hockey paddle having a sticky surface on the bottom preventing a smooth action on the table, but one side of the table also had the sticky surface all over its top. Thus, we were not on equal level playing fields, but it was still intense. Shyam got really competitive and managed to shoot the puck off the table. I got competitive and kept shooting the puck directly into the goal which was a success a couple times. Once it was 10 pm, the night came to an end, but we were all happy as we spent time together with laughs.
